

Thoroughly updated and revised A clearly structured and colourfully illustrated guide to the differential diagnosis of symptoms commonly seen by community pharmacists. Organised by body system, each chapter begins with a system overview and a brief guide to history-taking. Each symptom or condition examined according to background; prevalence; aetiology; arriving at a differential diagnosis; questions to ask the patient, and conditions to eliminate. From reviews of the first edition Paul Rutter's timely book provides a well-structured guide to making differential diagnoses ... The comprehensive text is easy to read and there are many excellent illustrations. ... All community pharmacists - whatever their experience - will find this book an excellent continuing professional development resource. I recommend it. The Pharmaceutical Journal Covers all the most common conditions and gives evidence to back up over-the-counter (OTC) recommendations. Puts the presenting symptoms into the primary-care context. Suggests which questions to ask to narrow down the possible diagnoses. Gives schematic summaries of how to arrive at a diagnosis. Evidence-based boxes as a guide for OTC medication. Practical prescribing summary tables. Hints and tips boxes for product use. Self-assessment sections. Colour images of important conditions. Chapter on specific product requests. Useful websites.
