

This book has an active table of contents to access each chapter. Thorstein Veblen is a great American economist along with Irving Fisher and John Bates Clark in many economic thoughts for combining a Darwinian evolutionary perspective with his new institutionalist approach to economic analysis. He developed a 20th-century evolutionary economics based upon Darwinian principles and new ideas emerging from anthropology, sociology, and psychology. Veblen's important works includes *The Theory of the Leisure Class* and *The Theory of Business Enterprise*. Thorstein Veblen presented his view and thoughts for the book *The Rate of Interest* written by the great American economist Irving Fisher. This book is for the readers who are interested in Veblen's thoughts about the rate of interest and its nature.
