

It doesn't matter what you do to earn money on the internet, chances are your method of receiving payment is the big daddy of them all - Paypal. It's clearly the world's favourite payment processor but the internet is full of stories of their zero tolerance policies and tendency to freeze accounts and ask questions later. Some people have had accounts frozen with significant amounts of money in them for 180 days! All their earnings suddenly dry up and despite constant contact with Paypal they are unable to convince them to open up the account and admit access to their own money! If you read their acceptable use policy and their legal agreements (and who has?) you'll find that they can basically do whatever they want with your money. The real puzzle is that they continue to grow despite this and their almost dismissive treatment of customers. The reason for this is they are the most reliable and easiest payment processor to use. So what do you do to minimize the risk to your earnings? Simple - you get hold of a copy of The Payment Protector System - Protect Yourself From the Paypal Slap! In this amazing guide I'll show you: The ten most common reasons why accounts get frozen What unusual activities raise Paypal's fraud flags and put your account at risk Why and how Warrior Special Offers (WSOs) can increase the likelihood of your account being frozen Why you should leave money in your Paypal account and what you should do with it Why just logging into your account can get it frozen! What three easy actions you MUST take to protect your account My recommended alternative to Paypal You simply must learn how to work with Paypal in a safe and effective manner. In the business world it's dog eat dog and only the strong survive. Learn how to be one of them. Protect yourself right now by getting hold of a copy of The Payment Protector System!
